---

Welcome people of all ability levels to the gathering with the ADA Regal Rectangular Portable Table. Classic, comfortable, and available in a variety of sizes to maximize seating capabilities, this table is made for any setting. The overhang built into this commercial-grade furniture allows wheelchair users to comfortably pull up to the table to fully participate in the socialization. Choose from a variety of vibrantly beautiful colors to instantly stylize this unit to match any existing outdoor space. This table is available in a 6-foot length with a single ADA overhang on one side of the table, leaving the frame off-set. You can also obtain an 8-foot version with your choice of either a single or double overhang, with the double overhang having a centrally positioned frame. Each overhang gives a clearance of 24 inches, allowing enough space for the comfortable placement of wheelchairs. The painting of the ADA Accessible Regal Rectangular Portable Table is done with a textured polyethylene coating on the table and seats and a powder coat finish of the frame. Both applications come in a variety of colors for you to choose from.
